

Information for the water providers in Idaho is based on best available information and has been compiled from the following entities: Kootenai County GIS Department - Water Districts and ACIs, Idaho State Tax Commission - Water Districts and Cities, Idaho Dept. of Water Resources - Irrigation Districts, East Greenacres Irrigation District, North Kootenai Water and Sewer District, Avondale Irrigation District, and City of Post Falls. City Limits and ACI's are denoted; there may be (and likely are) very small systems within the City Limits and ACI's which are not shown. Due to the likelihood of small, unmapped systems (within cities and other water districts, associations, and provider areas), please contact the water provider indicated on this map for a particular property to determine if the property is within the water provider's service area or if another entity should be contacted instead.
