August 2016
Dear Business Owner or Manager,

The Spokane Aquifer Joint Board (SAJB) is a consortium of twenty-one water purveyors who provide safe, clean drinking water to more than 500,000 Spokane County residents and businesses each day. We live and work in this area because of the quality of life, which includes the excellent water derived from the Spokane Valley Rathdrum Prairie Aquifer, our sole source of drinking water.

Your business is one of more than 2,000 businesses located over the Aquifer that may pose a potential for contamination of our drinking water source. Federal law mandates we notify you of this, and remind you that any contaminant released on or underground is expected to reach the Aquifer and eventually be drawn into public water supply wells.

In case of a toxic spill Call 911 first.
Then call Washington State Department of Ecology's 24-Hour Response line at 509-329-3400

Let's work together to maintain the exceptional quality of our Aquifer by safely storing and properly disposing of all contaminants. A disposal and business resource guide is enclosed for your reference.

Need help getting rid of your wastes? The Spokane EnviroStars Waste Directory is a local resource for businesses or residents to help you locate a vendor who will safely dispose of hazardous and other wastes. The Waste Directory also has health and environmental information for over 258 different wastes. Please visit www.SpokaneWasteDirectory.org.

Finally, your business may be eligible for Spokane EnviroStars certification and recognition if you properly dispose of and manage hazardous and other wastes. To apply call 509-847-4337 or go to www.SpokaneEnviroStars.org.

Thank you for your efforts to protect the Aquifer. If you have any questions, please call your water provider, or visit our website at www.spokaneaquifer.org to learn more about the Aquifer and our organization.

Best wishes for your business success,
The Spokane Aquifer Joint Board
