

## IGC Business Assistance Visit Talley 2001-2006

SAJB sponsored Ecology Interns to assist Toxics Reduction Specialist staff in conducting visits to businesses located over the Aquifer. Businesses were identified for visits because of they were on septic systems. In July 2004, the IGC technical assistance focus shifted from businesses over the Aquifer to medical and dental facilities in the Spokane region and proper management and disposal of hazardous medical waste.

### 2001

IGC's	July	Aug	Sept	Oct	Nov	Dec	Total
